## **Xemod – Modelling according to the DEMO methodology**

Xprise provides Xemod, tool for modelling organizations and business processes. Xemod is an acronym for Xprise Enterprise Engineering Modeler. The modelling tool support the [DEMO methodology](#) (Design & Engineering Methodology for Organizations). DEMO is brought into action at (re)designing organizations, irrespective of the kind of organization or the size of it.

### **'To engineer the enterprise'**

Xemod support you in setting up DEMO models, like the Interaction Model, the Process Model, the State Model and the Interstriction Model. Diagrams can be mutually related, e.g. Interaction Models can be nested. With a consistency check you examine quickly the correctness of the created models. You document models by adding free texts and files.

### **DEMO compliant**

Xprise sticks closely to the development regarding DEMO, participates in the [DEMO Centre of Expertise](#) and in the [CIAO! Research Program](#) and employs Certified DEMO Professionals. This provides the necessary input to develop Xemod for everybody who is involved in enterprise engineering and business process modelling (BPM) according to DEMO.

Xemod is available as a stand alone application for Microsoft Windows and is delivered in English.

[Download Xemod](#)

## Overview functionality Xemod

Xemod 2008, the first modelling tool that supports the DEMO methodology, offers the following functionality.

### Drawing diagrams of the following DEMO aspects models:

- Interaction Model – Transaction Result Table (TRT), Actor Transaction Diagram (ATD).
- Process Model – Process Phase Diagram (the famous 'sausage model'), Process Structure Diagram (PSD).
- State Model – Object Fact Diagram (OFD).
- Interstriction Model – Organization Construction Diagram (OCD).
- Indication of abstraction level per transaction type (essential, infological, datalogical).
- 'Nesting' of diagrams, e.g. setting up Actor Transaction Diagrams with several levels of zooming in.
- Examine the consistency of the whole of created aspect models.
- Directly edit underlying data tables.
- Reuse of model elements in the different diagrams.

### Supplementary functionality:

- Flowcharts, with relation to the DEMO models.
- Linking documents to model elements.
- Merge models from different files.
- Drawing on layers.
- Repository with model elements.
- Projects browser to organize created models.
- Generating reports.
- Generating web report.
- Export to Microsoft Access.
- Export to picture format.

## Licence- and price information Xemod

### Licence information

Xemod is available as stand-alone application for Microsoft Windows and is delivered in English. A licence entitles to having a certain number of installations of Xemod. Xprise provides a license code per installation. A license code is linked to a specific workstation on which Xemod is installed.

### Price information

The price of Xemod is € 99,00 (excl. VAT) per workstation.

For **students at a commercial training institute** the price is € 50,00, excl. VAT. This entitles to one installation of Xemod, which can be use two months. For a list with valid commercial training institutes, please visit the website of [DEMO Centre of Expertise](#). At ordering Xemod you have to prove that you receive training there.

For **students at a regular educational institute** the price is € 50,00, excl. VAT. This entitles to one installation of Xemod, which can be used two years. For a list with valid regular educational institutes, please visit the website of [DEMO Centre of Expertise](#). At ordering Xemod you have to prove that you receive training there.

### Evaluation version

If you want to evaluate Xemod, then you download and install Xemod, without entering a license code. You have then the disposal of the evaluation version. The evaluation version offers access to all functionality but has a limitation in the number of model elements that you can draw (maximal thirty). You can convert the evaluation version in a licensed version after entering the license code that you receive from us at ordering Xemod.

## Xemod trainings

Xprise trains you in designing organizations and process with the aid of Xemod. You can follow a scheduled training of we arrange for you a custom training. Students need to have prior knowledge of the theory behind and the application of the [DEMO methodology](#).

### Scheduled training

A Xemod scheduled training takes one day, on location of Xprise in Veenendaal, The Netherlands. The price of a scheduled training is € 385,00 per person, excl. VAT. Scheduled trainings are held if there are enough students.

Please [contact us](#) about the dates on which the scheduled trainings are given.

### Custom training

Please [contact us](#) for a custom training, in house or on location of Xprise.

## Support Xemod

If you have a question, idea, complaint or problem regarding Xemod? Please [report](#) it to us, and we contact you.

## Request substituting licence code

If you have a valid licence code of Xemod and you migrate to a new workstation, then you are obliged to remove Xemod from your old workstation and to request us for a substituting license code for the new workstation. [Click here](#) for requesting a substituting license code.

## Version information

For information about certain versions of Xemod, [click here](#).

## Version information Xemod

### At the latest version

Xemod 2008 is the continuation of Essential Business Modeler (EBM) version 1.5, as it has been taken over from Essmod Company, with some adaptations regarding contents and cosmetic aspects. Those adaptations are described in the Release Notes (see below).

Xemod version	Summary	
Xemod 2008, Build 1	Small adaptations regarding contents and cosmetic aspects after the taken-over of Essential Business Modeler (EBM) version 1.5.	<a href="#">Download</a>

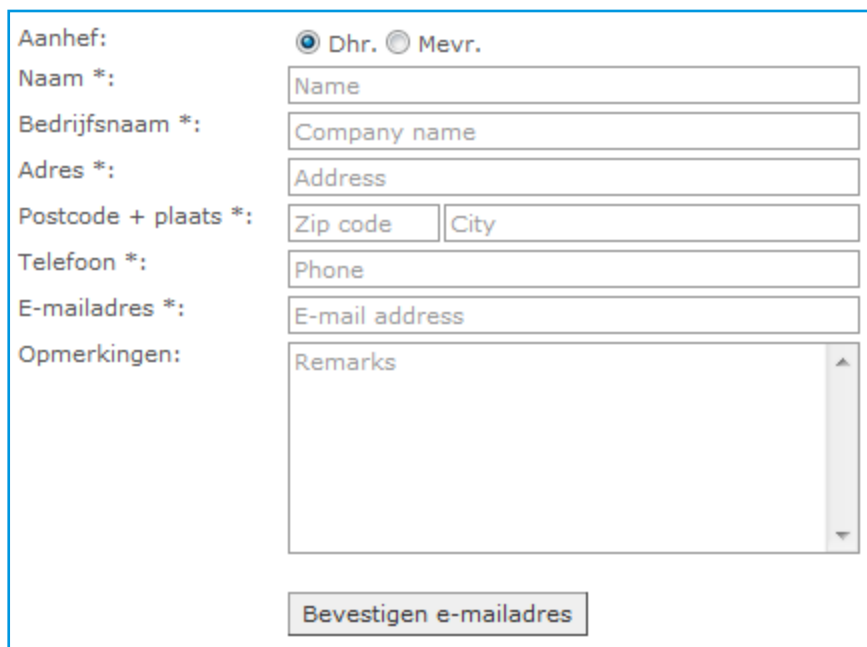

## Download Xemod

You can freely download Xemod. The evaluation version contains all functionality of the licensed version. There is only a restriction: the number of model elements that can be drawn is limited to thirty.

You can convert the evaluation version to a licensed version after entering the licence code that you receive from us at ordering Xemod.

For downloading Xemod we ask you to go to our website and to fill the [download form](#). After clicking the button 'Bevestigen e-mailadres' you receive an e-mail message with a hyperlink in it to acknowledge your download request and to start the download.

Note: find below a screenshot of the download form, including English translation of the field names.

The screenshot shows a web form for downloading Xemod. It includes a header with radio buttons for 'Dhr.' (selected) and 'Mevr.'. Below are several input fields with English translations: 'Naam \*' (Name), 'Bedrijfsnaam \*' (Company name), 'Adres \*' (Address), 'Postcode + plaats \*' (Zip code and City), 'Telefoon \*' (Phone), and 'E-mailadres \*' (E-mail address). There is also a large text area for 'Opmerkingen' (Remarks) and a button labeled 'Bevestigen e-mailadres' (Confirm e-mail address).

Aanhef:	<input checked="" type="radio"/> Dhr. <input type="radio"/> Mevr.
Naam *:	<input type="text" value="Name"/>
Bedrijfsnaam *:	<input type="text" value="Company name"/>
Adres *:	<input type="text" value="Address"/>
Postcode + plaats *:	<input type="text" value="Zip code"/> <input type="text" value="City"/>
Telefoon *:	<input type="text" value="Phone"/>
E-mailadres *:	<input type="text" value="E-mail address"/>
Opmerkingen:	<input type="text" value="Remarks"/>

## Order Xemod

For ordering Xemod you follow the procedure below.

1. On the workstation on which you want to use Xemod, you start Xemod and via the menu 'Tools > Register...!' you generate the installation code.  
Note: if you didn't install Xemod yet, then you first have to download and install it.
2. You fill out the [order form](#) that is on our website (see also below) and click on 'Bestellen'. Take care:
  - **Provide in the field 'Opmerkingen' ('Remarks') your installation code!**
  - **If you are a student, then provide the name of the company where you are employed in the field 'Bedrijfsnaam' ('Company name'). So NOT the name of the training institute.**
3. You receive a request for payment from us.
4. After we received your payment, you receive from us the licence code. You register this licence code in Xemod via the menu 'Tools > Register...!'.

Note: find below a screenshot of the order form, including English translation of the field names.

Aanhef:	<input checked="" type="radio"/> Dhr. <input type="radio"/> Mevr.
